Records and Other Information Considered

As the lead accountant for E&E and as an expert witness in this case, I and E&E's professional staff, under my direction and supervision, have reviewed and analyzed various documents and records. Attached hereto as **Exhibit 3** is a listing of various documents we reviewed and considered in connection with this report.

I. <u>Background</u>

Since in or about 2021 or 2022, Shakey's Pizza Asia Ventures, Inc. ("SPAVI")("Plaintiff") and Guy Koren, PCJV USA, LLC, and PCI Trading, LLC ("Defendants") have been involved in a dispute relating to the Potato Corner Trademark. Defendants claim that as a result of Plaintiff's interference with their ownership of the trademark, Defendants have lost business opportunities in opening up new stores since 2022.

We have been retained to investigate and calculate Defendant's economic damages as a result of Plaintiff's alleged interference with Defendant's trademark. In this regard, we have found that Defendant's new store openings grew at an average rate of approximately 12% during the 5 years 2013 through 2018. We have also found that Defendant's new store openings only grew at an annual rate of approximately 2% during the period of dispute between the parties, from 2021–2024.

It is important to note that during the period 2018 – 2021, new store openings did not grow as compared to 2013 – 2018, where new store openings grew at an annual rate of 12%. It is our understanding that the lack of growth between 2018 and 2021 is attributable to attempts to interfere with control of PCJV and its trademark rights by the alleged former co-owner of PCJV, which included Cinco Corporation, a Filipino entity. In this regard, we did not

attribute to SPAVI as economic damages in this case for the period 2018 – 2021 as such damages were allegedly caused by Cinco Corporation.

As of November 30, 2024, Defendants, as U.S. franchisor, operated a U.S. franchise system comprising of 35 Potato Corner outlets. In this regard, we have been informed by counsel that Defendants have lost the ability to use the disputed Potato Corner trademark by at least January 1, 2025. We have also been informed that by at least January 1, 2025, approximately 20 stores have elected to stop doing business with Defendants and are doing business with Plaintiff.

As of today, four stores have not yet decided whether they will stop doing business with Defendant and switch to Plaintiff. For purposes of our damage analysis contained in this report, we have assumed that the remaining four stores will also switch over to Plaintiff. Accordingly, we have assumed that beginning in 2025, Defendants have lost 24 stores, and the remaining 11 stores include 10 stores for which Guy Koren has a direct ownership interest and 1 store that elected to stay and operate under Defendants.

II. Summary of Findings and Opinions of Jason A. Engel

Overall, we have found that Defendant's economic damages resulting from Plaintiff's alleged interference with Defendant's trademark ranges between \$29.4 million assuming damages are calculated through 2034 and \$66.8 million assuming damages are calculated for an additional 10 years through 2044 (See Schedule A).

It is our understanding that as owners of the trademark, Defendants could have operated as the franchisor for an indefinite period of time. In this regard, we are not opining as to the proper period of time that Defendants would be entitled to recover economic damages, and accordingly we are providing the court with a 10-year projection and a 20-year projection. E&E will calculate

Defendant's economic damages, should the court find an alternative damage period is proper.

With respect to the remaining 11 stores that will be operated and managed by PCJV, we have assumed that the 11 stores will be operated under a new brand name beginning in 2025. In this regard, we did not have sufficient information to evaluate the performance of the 11 stores beginning in 2025 as we do not know how the stores will perform under a new brand. Accordingly, we assumed for purposes of this report, that PCJV will continue to operate from 2025 and will not generate any profits or losses.

In connection with our damage analysis, we did not calculate damages relating to PCI Trading LLC ("PCIT") as we did not have sufficient information. In this regard, we reserve the right to update this report when and if we obtain such information.

We have also been retained in connection with this case to investigate and calculate economic damages of Defendant Guy Koren as Koren has a direct ownership interest in 10 franchisees as of December 31, 2024. It is our understanding that beginning in 2025, Guy Koren's 10 franchisees are likely to incur economic losses as a result of losing intellectual property rights.

We have been unable to evaluate and calculate economic damages potentially suffered by Guy Koren's 10 franchisees as we did not have sufficient information as of the date of this report. It is important to note that there is insufficient information to determine the impact on the sales of the 10 franchisees due to the loss of branding/trade name beginning in 2025. We anticipate that as monthly revenue information becomes available in 2025, we will likely be able to evaluate the impact from the loss of branding/trade name. In this regard, we reserve the right to update this report when and if we obtain such information.

III. Detailed Findings and Opinions of Jason A. Engel

A. <u>Historical Damages Resulting From The Alleged Interference From 2022</u> – 2024

We have calculated Defendant's economic damages approximating \$766,969 based on our findings that Defendant's new store openings did not grow during the period 2022 – 2024, but would have grown at a rate of approximately 12% but for Plaintiff's alleged interference with Defendant's Trademark (**See Schedule A**).

Our calculation of lost revenues for the years 2022 - 2024 is based on the historical average revenues per store and the number of lost stores. Also, our calculation of lost profits takes into consideration cost of goods sold and variable operating expenses (See Schedule B).

B. 10 Year Projected Lost Profits Resulting From The Alleged Interference From 2025 – 2034

We have calculated Defendant's economic damages approximating \$28.6 million based on our findings that Defendants lost 24 existing stores in addition to the lost opportunity to open new stores (**See Schedule A**). Our calculation of projected new stores is based on the company's historical compound annual growth rate of new store openings approximating 12% (**See Schedule D-1**).

Our calculation of lost revenues for the years 2025 - 2034 is based on the historical compound annual growth rate of the average revenue per store and the number of lost stores. Also, our calculation of lost profits takes into consideration cost of goods sold and variable operating expenses (See Schedule B).

C. Additional 10-Year Projected Lost Profits Resulting From The Alleged

<u>Interference From 2035 – 2044</u>

We have calculated Defendant's economic damages approximating \$37.4

million based on our findings that Defendants lost the opportunity to open

111 new stores (**See Schedule A**). In this regard, we have assumed that

beginning in 2035, PCJV would experience zero growth in the number of

new stores. Our assumption is intended to be conservative in our

calculation.

Our calculation of lost revenues for the years 2035 – 2044 is based on our

finding that for the year 2034, Defendant's average revenue per store

would approximate \$234,000 per store (See Schedule B). In this regard,

we have assumed that beginning in 2035, PCJV would experience zero

growth in the average revenue per store. Our assumption is intended to be

conservative in our calculation.

Our findings and opinions contained in this report are subject to change

should new documents or information become available.
